

Boston Monday evening

Dear Return.

I have just got your letter  
which has to reach me by your calculation  
yesterday night - I have it not by me just  
now but think you could not have forwarded it  
so soon as long as tomorrow - I don't believe that  
Henry will be willing to lend you his watch  
at such rate they broke open the letter  
this & are at liberty to act upon the  
information they have obtained -

Luccia is reading Lorraine you shall  
have it done some next week - as to  
the copies I will send you what I  
have but it is folly to try to get  
them so easily I find little more for  
each thing even with new big issues  
I suppose that Edwards drawing  
looks like what you want & I will  
send them but you must pay for  
them & for I have had them twice  
& they do not go to my thinking about me  
drawing good - & we are going on  
pretty quick here - I am nearly well  
my face afflicts me very little just  
now - the only trouble is the constant  
expectation that I chance - Little  
trouble as Longfellow is I must stay  
at home & I do to her other wish  
& I spend this nearly all the time  
which I could do as here as part -  
The school is better than I expected  
in the morning

I suppose Miss Brown is going  
to the Ararat's first quarter & I  
suspect this from some movements -  
but don't know it certainly -

I have a new School at an Miss  
Harris - down the street you know  
~~George Bradford~~ began with her.  
To me & I was as much surprised  
as if the moon had fallen - when  
she (this Harris) told me that she Emerson  
had mention'd my school to them  
I think this must have been a little later  
Broth'hood - didn't you - George Brad - is gone  
to Bangor - I saw Mr Stark - did I  
tell you I got yr letter but am & have  
been anxious to hear from you & know  
just how you got on - I hear of you  
through Anna & of Anne through you  
A note to me that she was quite well  
her enough gone - her poor also - I wrote  
to her to remain where she was,  
but I have heard nothing since except  
Theodore who was in town a few days since  
was just from Groton - had seen Anne & said  
she was not ~~well~~ - & Dr F. was dosing her  
whether it's some new disease - or of course  
the old story I don't know - but if she  
has much work she should certainly  
be as honest - won't she not? -  
Theodore has run up & taken the Woodbury  
off his nest - & no Squawking - he is to be a

agent - Dr. Beman goes into the work on  
the 15<sup>th</sup>. Sat - leaving a church of 900 mem-  
bers -!!! - The broad a fine man - the world  
has already procured 40 agents!!! - good  
men & true - & most of the rest of them  
are enlisted "for the war" Chaplin goes  
to the western part of Pennsylvania - in  
a month - St. Stanton his mother des-  
perately - in Portland last this day & Friday  
evening - he came up more tired than  
alive - having lectured 10 times in 7 days  
& trucked half the time to boot - he left  
the mob - to keep his appointment at Key-  
mouth - & he went there Sat aft he staid  
at our house - was quite sick & sat up  
very little perhaps trying to act like Theodore  
at the time for the lecture & then he got  
up & gave it to him I never heard him  
so better - I went down in the evening  
stage - Sunday morning went right  
down in a party all & took in & they  
had Savinport & Sycamore down - left  
Lewist & took me back - after lecture he  
got in about 12 o'clock had a beauti-  
ful time only could not find out  
how much money - they got over  
above the \$500 of pledged &c - has  
ready to be paid over - Stanton has left  
to go to Hanover, Ohio today (this) after  
afternoon - I am generally fond of the  
young man - he goes to Victor Sat-  
day or Wednesday or Thursday - Dr. Farn-  
worth has given him over \$100 - to the  
Dr. Dr. L. - well done Dr - I was glad to  
see that when collectors have asked to see

winter to go around & get money  
G. Newcomb - snatched a hat & went as if  
he had a hour to the work - He used hands  
day next Operate - there were a good many  
"grey backs" - Said like you other workers  
has had his tooth out - the lower one that  
has troubled him so long then has an  
over very bad upon it -

Miss Johnson  
Bank of New-York  
New Bedford  
Mass

I must finish my journal - for I have so  
much to do & think of that I can't tell to  
done my life what I have written to you  
& what to come & what to say mouth -  
but I'll keep a journal - & see if I won't  
know - Asattus Tappan is in town today!  
I haven't seen him - I send the 8 man capation  
it's good - we in back Barn live with a line in
